
SCOTT W. LUTTERLOH

**DIRECTOR, TOTAL FORCE
TRAINING AND EDUCATION DIVISION
OPNAV (N-15)**

Currently, Mr. Lutterloh is assigned as Director, Total Force Training and Education Division responsible for policy, planning, and programming of Navy's training and education initiatives, including Navy's Joint Professional Military Education, and Navy training requirements in acquisition programs and Human Systems Integration. From October 2006 to October 2008 Mr. Lutterloh served as Director, Total Force Requirements Division, and Assistant Director for Requirements Integration on the Chief of Naval Operations staff. He was responsible for development, planning and programming of all U.S. Navy manpower requirements, and integrating military, civilian, and contractor constituencies across the Navy.

Previously, Mr. Lutterloh served as Director, Training Systems Division in the Program Executive Office, Integrated Warfare Systems in Washington, D.C. As Program Manager, he was responsible for embedded training systems development, engineering, acquisition, installation, and maintenance onboard all surface ships in the U.S. Navy.

From October 2003 through February 2006, Mr. Lutterloh served as the Executive Director of the Center for Surface Combat Systems Training (CSCS) headquartered in Dahlgren, Va. He directed operations, maintenance, and tactical training for United States and international surface combat systems. From 1996 until the establishment CSCS in 2003, Mr. Lutterloh served at the AEGIS Training and Readiness Center (ATRC) as Executive Director. During his tenure, ATRC established itself as the premiere training organization in the surface Navy.

Prior to his assignment at ATRC, Mr. Lutterloh was Director of the Logistics and Training Operating Center for LOGICON Syscon where he directed the complete range of defense related logistics services, training support, and training simulation contracts for the corporation.

Mr. Lutterloh served in the United States Navy as both an enlisted Sailor and Officer in a variety of positions including assignments as Main Propulsion Assistant on USS MACDONOUGH (DDG-39) and the lead Surface Warfare Manpower, Personnel and Training Analyst on the staff of the Chief of Naval Operations.

Mr. Lutterloh received his Bachelor's degree in Mechanical Engineering from the U.S. Naval Academy in 1978. He was selected for promotion to the Senior Executive Service in October, 2006. His Service Awards include the Superior Civilian Service Award (2006), and the Meritorious Civilian Service Award (2001). He is a member of the Surface Navy Association, American Society of Naval Engineers, and the U.S. Naval Institute.
